# Alexis Praise George

Data scientist, ML Engineer | Aspiring Full-Stack developer

Kigali, Rwanda · alexispraisegeorge@gmail.com · +250 798 978 475 · github.com/Alexis-G11

## PROFESSIONAL SUMMARY

Computer Science student with a focus on Data Science and a growing foundation in full-stack web development, data analytics, and machine learning. Familiar with Python, React, SQL, HTML, CSS, Power BI, and Jupyter Notebook through academic projects, internship activities, and freelance work. Interested in applying technical and analytical skills to practical problems while continuing to grow through an internship or entry-level software development opportunity.

## TECHNICAL SKILLS

**Programming:** Python, PostgressSQL, MongoDB, Node.js

**Web Development:** HTML, CSS, React

**Data Science:** Data Analytics, Power BI, Jupyter Notebook, Machine Learning, Web Scraping

**Tools:** Git, Github, Google Colab, AWS, Vercel

**Soft Skills:** Communication, problem-solving

## EXPERIENCE

### Freelance & Internship Projects

*Web Development | Data Analytics | Machine Learning*

- Engage in freelance and internship-related work across web development, data analytics, and machine learning.
- Work with data analysis tools, including Power BI and Jupyter Notebook.
- Apply programming and analytical skills to technical tasks and project-based work.

## PROJECTS

### BusinessIQ Platform

A digital accountant, business analyst, and predictive intelligence platform/application for small and medium-sized businesses.

### Diabetes Risk Prediction System

Developed an end-to-end predictive risk-assessment system using machine learning algorithms to identify patient susceptibility to Type 2 diabetes, improving early intervention accuracy by [X]% and processing data from over [X] patient records.

### E-Commerce Funnel Analysis

Analyzed user behavioural data across 5+ checkout stages using SQL to identify structural drop-off points in the sales pipeline.

## EDUCATION

### Université Libre de Kigali

*Bachelor's degree in Computer Science — Data Science*

### Alexander B. Cummings Model Science and Technology School

*High School Diploma | Grade 12 graduate*

GPA: 3.2

## CERTIFICATIONS

### IOTHub Certificate

*Data Analytics, Internet of Things (IoT), and Software Development*
